

Report 3 LAMU – 06.09.13 at 9.15 -11.00 am

Present: Ingrid Kjelsvik, Elisa Bjørgo, Eshrat Babaie, Gladys Tjørhom, Ingrid Guldvik , Berit Barkley and Liv Bjørland (secretary)

Excused: Sandra Lopez- Aviles

Item 3- 1/13 Approval of the minutes from the meeting

- LAMU report 2-2013 27.05.13 was approved

Item 3- 2/13 Briefings

- Cleaning BiO will start sept. 6th. ISS will work in the weekend with the offices and corridors at E2 /admin and E3 /KT-corridor and labs (*Finished the mid October*)
- Deviation reports.
2 accidents at NCMM. Accident with phenol. The burns were treated with 99% glycerol and pyrisep wih macrogol. Very good result. Accident with broken glass into hand which needed medical care and follow up.
- 2 unfortunate incidents at BiO Leakage of CO2 from a gass-cylinder connected incubators. Removing solution from the autoclave. The bottom was broken and bottom fell out outside the autoclave. The lab-coat and shoes protected the persons from burns from the hot solution.
- The installation of transmission electron- microscope at SMN.
The deviations resulted in the agreement between BiO and the Nortem project
The deviations occurred in connection with construction work for installation of a new transmission electron-microscope at SMN. Noise, dust, odors. Chemical vapors and vibration up to 2G caused several and serious problems. BiO and Oslotech agreed on a procedure for the measures to prevent further deviations.

Item 3- 3/13 The management review /recommendation/laws and regulation in force.

- The report from “The management review”, the recommendation from the HSE coordinator and new laws and regulations was attached to the agenda and referred. The report was noted with no comments.

Item 3- 4/13 The report from the UiO-inspection of waste storage.

- It is recommended that the isotope waste is stored in a separate room, away from the risk/biological waste. Shortcomings in different rooms like shelves, ventilation, signs etc. was noticed in the report.

Item 3- 5/13. Internal HSE- audit of the Biotechnology Center will probably take place in October.

- They will probably interview the top administration of BiO, the HSE coordinator , the safety representative, some responsible persons of the labs and some users

Item 3- 6/13 Any other matter

Item 2 - 7/13 Next meeting.

- Suggestion: Late November . Liv makes o doodle.

17. October 2013 Liv Bjørland
