- The ARK-investigation was discussed in the beginning of the meeting. In August, Ingrid talked to IMB/Rustad who will do the ARK- investigation during the winter. They let us know it takes 6 months just to prepare the questionnaire. NTNU, who prepare the reports after the investigation, has a lot to do for the time being, so their capacity is uncertain. Ingrid will contact Lene Renneflott for a meeting to discuss the approach for NCMM.
