

Report LAMU NCMM 2- 2019, 04.06.19 at 13.00- 14.30

Present: Janna Saarela, Ingrid Kjelsvik, Anthony Mathelier, Gladys Tjørhom, Bojana Sredic and Liv Bjørland.

Room: Micro at E2

Item 1-1/19 Minutes from meeting 04.06.19 were approved.

Item 2-2/19 Short briefings

- Oxygen detectors. Oxy safe was installed at E2 (3) , and D3 (2), and information sent out 21.04.19
- The broken minus 150 freezer arrived in Sweden January 15. Due to new regulations concerning delivery of gas, Thermo Electron Sweden transferred the freezer to the German manufacturer the 2nd of May. The repair is in process.
- The minus 80 freezers at D3. We need more space in the freezers at D3. NCMM has requested that the group leaders and staff do a thorough cleanup, but this is not finished.
- The minus 20 freezer room/cold rooms and new alarm systems. We had a breakdown in May of the newly installed system for the freezer room (E2) and in the same period a fan also broke down for the cold room at D3. To catch the rise in temperature, NCMM now wants to install alarm systems for these rooms as well.
- The security benches: Bryn Renluftsteknikk AS will safety check the benches the 12- 13th of June. We hope that Zwegon also can perform service for the hoods.

Item 3-2/19 Adverse events. NCMM had two events in April, just after Easter. One CO2 leakage in cell lab 42161 and one mixing of biological and ordinary waste due to lack of training/ language problems.

Item 4-2/19 Quiz for the HSE web introduction.

LAMU approved the schematic outline of the quiz. We still have issues that need to be resolved regarding getting the correct answers validated. We need more time.

Item 5-2/19 The HSE report for NCMM 2018. Ingrid Kjelsvik presented the report. CMMM sent the report to the Faculty of Medicine in March. The Director Kjetil Taskén ended his 40% position in June.

Item 6-2/19 Time for 2rd LAMU-meeting 2019.

- Ingrid called for 02.09.19 in the meeting.

Item 7-2/19 Miscellaneous

Attachment for the meeting 04.06.19

- Item 1 LAMU report 26.03.19
- Item 4 Quiz HSE questions were only presented at the meeting

28.08.19 Liv Bjørland
