

**NCMM Network Meeting 2021**  
**Wednesday 5 May**

**Program**

- 10:00-10:15: Welcome and short overview of NCMM and seed funding opportunities by Professor Janna Saarela, Director of NCMM
- 10.15-11:15: Pitches from NCMM group leaders:  
Main aims/focus of own research and what they are looking for in terms of collaborations (5 min including questions / 2 slides max each)  
*Chair: Elisa Bjørge*
- 11:15-11:35: Break
- 11:35-12:45 Short presentations (8 min + 2 min QA) by Associate Investigators in three parallel sessions
- 12:45-13:30: Lunch break
- 13:30-14:40: Short presentations (8 min + 2 min QA) by Associate Investigators in three parallel sessions
- 14:45-15:00: Break
- 15:00-15:25: Ongoing collaborative projects in the network – short presentations by  
Camila Esguerra: *Combined computational and in vivo modeling to predict genotype-phenotype correlations for schizophrenia risk variants* (collaboration with Ole Andreassen)  
Lynn Butler: *Dynamic temporal network analysis of the endothelial cell transcriptional response to inflammatory stimuli* (collaboration with Marieke Kuijjer)  
*Chair: Janna Saarela*
- 15:25: Closing remarks by Janna Saarela
- 15:30-16:00: Opportunity for one-on-one discussion in break out rooms (allow enquiry of interest / initial planning for joint project applications)

A **Slack channel** is available to facilitate as much interaction and discussion as possible:  
<http://bit.ly/NCMMnetwork2021>  
Annabel Darby will monitor the channel during the meeting and make sure the queries are being dealt with.
